SmartSanitizer Liquid

Product ID: SS-STZR01

Hand Sanitizer Liquid

Description

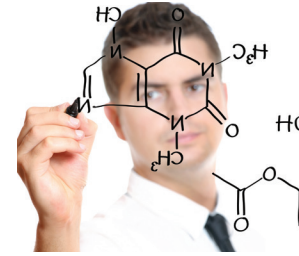

Medical Grade liquid based 80% v/v USP Ethanol Hand sanitizer to be used in conjunction with frequent hand washing or when hand washing is not an option. It is used to fight, reduce pathogens and illness.

Features

- Our products are manufactured with USP monographed (third party tested and certified) Ethanol which meets pharmacopeia standards.
- Our formulas use only USP Grade Ethanol
- Our products are manufactured at a GFSI 22,000, BRC accredited facility
- Our products are all registered with the FDA and all have distinct NDC number for each pack size.
- Our products are produced with Ethanol what has extremely stable pricing, which enabling us to provide confirm price much further out in time than IPA

Benefits

- Our products meet or exceed the World Heath Organization (WHO) guidelines
- Highly effective
- No bad yeisty or tequila smell
- Our product leave you hands feeling clean and silky. Not sticky or tacky
- Costing contract can extend further out in time due to reduced volatility in the raws. Namely Ethanol vs IPA

Type of Equipment

- Bottle
- Bottle applicators
- Mechanical Dispensers
- Touch-less Dispensers
